

MENDA Beauty

There is only ONE MENDA Pump!

Dedicated to providing quality products since 1947, MENDA pumps are made in the United States of America and are constructed of the finest stainless steel obtainable. MENDA pumps are industrial strength, high-performance dispensers ideal for solvents and other liquids.

PREVENT ACCIDENTS & WASTE

No excess fumes, spilling, or dripping.
Dispense only what you need at one time.

SAVE TIME & LEAVE ONE HAND FREE

Easily press down and fluid pumps up.

PREVENT FLUID CONTAMINATION

Pure-Touch Pumps do not allow dispensed fluid to drain back into bottle and contaminate contents.

Travel Frequently?
Ask us about our spill and leak resistant locking pumps!

Needs Only One Hand!

Just Press Down

Fluid Is Pumped Up!

Stainless Steel Pumps

One-Touch:

Excess fluid drains back into the bottle and minimizes product waste.

Salon Tip:

Use with Polish Removers

Pure-Touch:

Keep bottle contents pure.
Dispensed fluid stays in the top dish and does not drain.

Salon Tip:

Use with Acrylic Monomer

Polypropylene Pumps

Lasting-Touch:

One-Touch operation with a convenient "Swing Lid."

Twist-Lock:

One-Touch operation with a locking feature. Lightweight and great for travel.
